Kitten's life

Where will the kitten be living in your house?

Are you willing to "kitten proof" your home to give your kitten the best start and chance to be successfully trained and integrated into your home?

Are you financially able and willing to feed your kitten a high-quality diet?

In the case of an emergency are you financially able and willing to ensure your kitten has prompt veterinary care?

Will you buy the pet insurance for your cat?

Do you agree that a kitten needs care and love?
And all cats have a chance of getting sick or accident, especially older cats, and can incur a cost from Vet.
And have a sense of responsibility to take care of a cat for a lifetime (12-16 years)

Can you accept the nature of cats? Such as may scratching furniture, like to chase some moving things, and will shed hair and so on.

Any other details you would like to add, the more specific you are the better we can ensure the right kitten is selected for your family and needs:

Please note
